August 26, 2016

FDA has provided the following additional information regarding the *V.p.* recall notification to ISSC:

The recall notification posted on the ISSC website on August 25, 2016, was a CFIA Class III recall and only affects shellfish which are being distributed within Canada. The product that was shipped to Maine, Massachusetts, New York, and Pennsylvania is not included in the recall and does not require action by State Shellfish Control Authorities.
