

6/4/2024 UPDATE – JBR EXPANDS RECALL OF CERTAIN FROZEN OYSTERS DUE TO POSSIBLE HEALTH RISK

JBR (KR-15-SP) Tongyeong, Republic of Korea, is voluntarily recalling all frozen half-shell oysters harvested between 11/26/2023 and 2/14/2024 to ensure public health safety in the U.S. due to distribution of JBR's products. The oysters were processed by JBR between 11/27/2023 and 2/15/2024. This is an expansion of an ongoing [recall](#) associated with product potentially contaminated with norovirus that included frozen oysters harvested by JBR on 11/26/2023, 12/27/2023, 1/03/2024, and 2/14/2024 with individual lots B231126, B231227, B240103, and B240214. Additional distribution information beyond what has been cited in previous recall and alert notifications is pending.
