<p>Proposal Subject</p>	<p>Ineffective Model Ordinance Requirement</p>
<p>Specific NSSP</p>	<p>Section II. Model Ordinance</p>
<p>Guide Reference</p>	<p>Chapter IV. Shellstock Growing Areas</p>
<p>Text of Proposal/ Requested Action</p>	<p>@.01 Sanitary Survey.</p> <p>A. General.</p> <p>(1) The sanitary survey is the written evaluation report of all environmental factors, including actual and potential pollution sources, which have a bearing on water quality in a shellfish growing area. The sanitary survey shall include the data and results of:</p> <p>(a) A shoreline survey;</p> <p>(b) A survey of the bacteriological quality of the water;</p> <p>(c) An evaluation of the effect of any meteorological, hydrodynamic, and geographic characteristics on the growing area; and</p> <p>(d) An analysis of the data from the shoreline survey, the bacteriological and the hydrodynamic, meteorological and geographic evaluations; and</p> <p>(ed) A determination of the appropriate growing area classification.</p> <p>(2) The sanitary survey shall be periodically updated through the triennial reevaluation and the annual review in accordance with Section C. to assure that data is current and that conditions are unchanged.</p> <p>(3) The documentation supporting each sanitary survey shall be maintained by the Authority. For each growing area, the central file shall include all data, results, and analyses from:</p> <p>(a) The sanitary survey;</p> <p>(b) The triennial reevaluation; and</p> <p>(c) The annual review.</p> <p>(4) Wherever possible, the Authority shall provide the necessary information to Federal, State, or local agencies which have the responsibility to minimize or eliminate pollution sources identified in the sanitary survey.</p> <p>(5) The Authority shall maintain a current comprehensive, itemized list of all growing areas, including maps showing the boundaries and classification of each shellstock growing area.</p>
<p>Public Health Significance</p>	<p>This section is redundant and confusing. It does not add anything. Whatever would be included here should be addressed by analyses conducted during efforts to meet the</p>

	Chapter IV. @.01 A. (1) (a) requirement for shoreline survey to be conducted according to the instructions provided in Chapter IV. @.01 D., Chapter IV. A. (1) (c) requirement for evaluating the effects of various factors impacting the area, and the Chapter IV. @.01 A. (1) (d) requirement for determining the appropriate growing area classification.
