Pre-Proposal Process

Applicant Method Developer or Lab Proposing SLV Work

↓

Pre-Proposal Letter of Intent sent to the ISSC Executive Office

↓

LMRC makes recommendations to Task Force I or Executive Board based on:

- ISSC interest or need for the proposed method
- Goodness of fit of LMRC for this review
- Readiness of the proposed method and its use for SLV

Screening Process

ISSC Executive Board or Voting Delegates to invite applicant for full SLV and assign a liaison person from LMRC

↓

ISSC Executive Office receives SLV application and Q/C checklist items, establishes a submission date, and distributes to the LMRC

↓

LMRC has six (6) months to determine whether the application is complete and Q/A checklist items are attached or to request additional information or analysis with timelines.

Approval Process

Complete application proposal for laboratory method submitted to the LMRC by ISSC Executive Director.

↓

LMRC has six (6) months to review SLV application and checklist, document findings, and cite specific deficiencies in the method, SLV, or checklist

↓

LMRC makes recommendations to Task Force I or Executive Board on approval of method and checklist
